ColorStream plastrac

The Blending Revolution is Here!

Our patented, modular, virtually maintenance-free system moves blending and color changing to ground level. No more catwalks, scissor lifts, ladders, or climbing to swap out canisters or perform maintenance. And because it is cart-based, ColorStream can move easily between multiple machines.

Join the Blending Revolution.

#MAGUIRETRIPLEA

AAA

ACCURATE - ADVANCED - AUTOMATIC

THE BEST IN CLASS
MGF GRAVIMETRIC FEEDER
FOR THE PLASTICS INDUSTRY

- ★ **Accurate:** Twin load cell control measuring and adjusting for every gram of masterbatch or additive
- ★ **Advanced:** Unique control software features provide faster start-ups and color change
- ★ **Automatic:** 100% color inject with automatic color control for every situation

MAGUIRE[®]
Intelligent Simplicity

Want a free trial for 100% results with the MGF Gravimetric Feeder? Call us now to find out more.

Hot Runner Controller

High Quality & Robust Plastic Injection Solution

Single Zone Type

- Controlling Precisely Temperature with A New PID algorithm
- Protecting Overpower and False Connection
- Algorithm to Prevent TRIAC Breakage (Improved Cooling Efficiency of Heat Sink)
- Protection Function against Wiring Error, Heater Short, Overpower, Overcurrent

Multi Zone Type

- Controlling 6 ~144 zones
- Intuitive UI and Various Display Panels
- Monitoring Mold Files
- Testing Mold Function
- Error Report Function
- Adopting Sequence injection timer (optional 1~16 gates)
- Protecting Overpower
- Excellent Performance with 32bit Processor

Maximize ROI in High-Temp Molding Applications

Investing in high heat water or oil temperature control units (TCUs) is only *half the solution* when using high-performance plastics like PEEK, Ultem, LCP, and Torlon.

The other half: High-temperature hose, manifolds and other components to tie your systems together. To ensure optimal performance, efficiency and safety in your high-temp operations, work with an experience partner like Plastixs.

Critical Components for High Temperature Molding

Manifolds

- ▶ Plastixs HiTemp Water
- ▶ Plastixs HiTemp Oil
- ▶ Plastixs Xtreme HiTemp Water

Hoses

- ▶ Plastixs HiTemp EPDM
- ▶ Plastixs Insulated PTFE
- ▶ Plastixs Insulated Flexible Metal
- ▶ NORRES AIRDUC PUR 355 HT

Flow Measurement

- ▶ SMARTFLOW Flow Regulators
- ▶ SMARTFLOW Low Flow Indicators
- ▶ SMARTFLOW Flowmeters

Pure Water Circulation

- ▶ Plastixs X-PURE Water Supply System

Mold Maintenance

- ▶ SLIDE #439 Super Grease
- ▶ SLIDE #457 Pure Eze Mold Release
- ▶ SLIDE #441 Hi-Temp 1800 Mold Release
- ▶ SLIDE #478 Hi-Temp Purging

Plastic Leak Alarm Systems

- ▶ AIRTECT Manifolds & Controllers

NEO series

Design drives change.

Tederic, Your Global Partner

No matter where you are located in the world, Tederic can provide you with premium, high-quality plastic injection molding machines and exceptional after sales service and parts support.

In addition to the Tederic headquarters in China, we have 4 overseas subsidiaries, and our distributors and agents are located in 38 countries around the world.

The all new NEO Series

The **NEO** family of premium injection molding machines are designed to offer stable, precise, efficient and energy saving performance.

Excellent specifications, Industry 4.0 ready controller, and leading brand componentry, all used in conjunction with cutting-edge design, produce machines that are perfect for even the most demanding applications.

INNOVATIVE ROBOTICS LINE FOR PLASTICS INJECTION MOLDING !

H5 Series !

Heavy Payload , Low ceiling !

H5 SERIES

- Molding Machine Size : 750 ~ 4,000 Tons
- Full Servo Robot up with 5 Axis AC Digital Servo.
- Industry First !. reverse (1 Axis) + Articulated Robot (4 Axis)
- Heavy Payload, Low ceiling & Less foot print
- Application : Basic Take out, Stacking, Insert Over Molding, Gate cutting, 2ndary automation!
- Features : High Strength Steel Frame, Powerful AC servo Motor, High Precision NSK Liner Motion Guide.

H5-C10 Controller

- 7" Wide Touch Screen
- ARM Cortex-A8 CPU, DDR2 512 MB
- Body Attached I.O box
- High-Performance EtherCAT Communication
- User-Friendly Icon-Based Control Screen.
- Developed with 30 years experience in the plastics molding industry.
- CE Certified Components, ISO 9001 Quality Production.

EPIK SERIES (Single or Double Arm Model)

- Molding Machine Size : 200 ~ 800 Tons
- Single or Double Arm Model (3~7 Axis AC Servo Control)
- Control : HYK-70 (Keba) Controller
- Application : Basic Take out, Stacking, Insert Over Molding, In Mold Labeling and Other 2ndary Automation, Sprue Picking
- Features : High Strength Steel Frame, High Strength AC servo Motor, Low Noise NSK Liner Motion Guide

HYK-70 (KEBA) Controller

- 7" Wide Touch Screen
- 1.2 GHz, ARM Cortex-A9 Core
- Ergonomic Design,
- High-Performance EtherCAT Communication
- High Quality Components, ISO 9001 Quality Production.
- User-Friendly Icon-Based Control Screen.
- Mode and teaching type programming for beginner mode
- Line by line programming for expert mode

ISO9001 QUALITY

CE CERTIFIED

EPIK-W SERIES (Flat Front Style Robot)

- Molding Machine Size : 400 ~ 4,000 Tons
- Flat Front style Robot with Single Arm Model
- Control : HYK-70 (KEBA) Controller
- Application : Basic Take out, Stacking, Insert Over Molding, In Mold Labeling and Other 2ndary Automation.
- Features : Longer parts handling, Low ceiling.

UNIK- SERIES (Mini Servo Robot)

- Molding Machine Size : 50 ~ 200 Tons
- Single or Double Arm Model
- Control : HYK-70 (KEBA) Controller
- Application : Take out, Stacking, Gate cutting, 2ndary Automation, Light Application.

SAFETY FIRST!

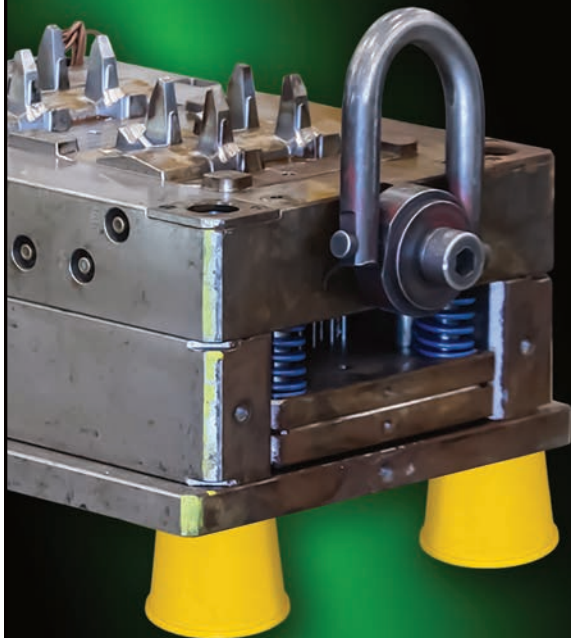

RHINOFEET™ FOR A SAFER SHOP FLOOR!

From molds on the floor to tools on the bench, Progressive's RhinoFeet offer a simple solution to elevate and store heavy items:

- Eliminates the trip hazard of wood and skids strewn about the plant.
- Cleaner approach that improves 5S standards.
- Conveniently stores within reach magnetically.

Call 1-800-269-6653 for a free sample, and visit our website for a product video and more info.

Design Your Own Flow Regulators

Control Cooling Circuit Conditions on Your Terms

Smartflow Manifold and Flow Regulator assemblies are designed by you for use with your existing hookups.

ManifoldBuilder.com is the on-line tool to create the setup matching your process conditions.

Select your manifold platform:

Aluminum or Stainless 3/4" thru 2"
High Temperature & Pressure

Select your regulator options:

Delta-Q®, Brass, High Temperature
Flow Rate
Additional Gauges
Hose Connections
Ball Valves

*Single Flow
Regulators are
also available.*

IMPROVED PROCESS EFFICIENCY

PLASTICS EXTRUSION WORLD EXPO Booth C1133

DURABILITY

Our extruders provide a greater stability and longer system life that help maintain a healthy bottom line.

QUALITY

Our years of experience are reflected in every filter that we build. This leads to a superior filter to anything else on the market.

EXPERTISE

Our technological skills and expertise allow us to build the pelletizing die you need for your operation.

TECHNOLOGY

We have mastered the design and construction of water baths, giving our customers an edge in their extrusion business.

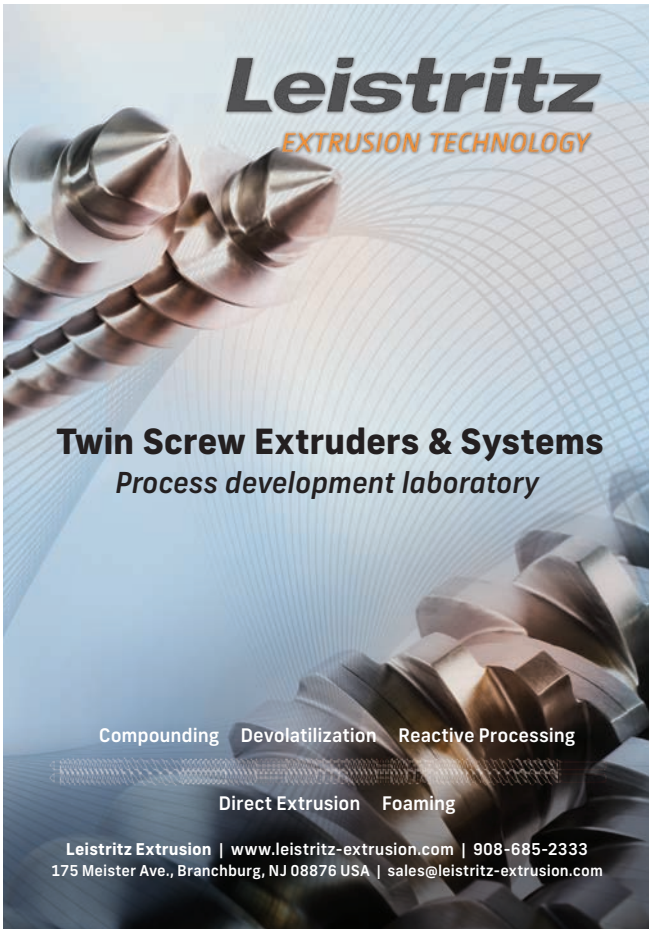

EXTRUDERS • SCREEN CHANGERS • PELLETIZERS • AIR STRIPPERS • WATER BATHS

LOG Injection Molding Machine

LOG manufactures an extensive range of high-precision injection molding machines for diverse applications. You can count on us for advanced technology, application expertise, and after-sales support to help improve your overall injection molding productivity and profitability. The LOG Injection Molding platforms of cost-effective A series are all hydraulic with variable displacement pumps, and the energy-efficient S Series servo units span from 90 to 2,200 U.S. tons. In stock-ready to ship!

New, Wireless CVe Monitor from Progressive Components

New real-time mold monitor, the CVe Monitor® RT, tracks tool activity and communicates via Bluetooth® access to ProFile®, a web and mobile-based application. The CVe RT allows users to view the tool's cycle count and other data on the device, provides wireless access to information utilizing the ProFile app, and, with additional hardware, can send real-time data to the ProFile app in the cloud for global access.

For more information, call Sujit Sheth at 1-847-942-2665 or visit <https://procomps.com/CVeRT>

Globeius

Our cranes are BETTER in confined spaces load lifting because they are designed specifically for the molding industry. Our hand control cranes are designed based on the specific issues of distance between presses, tie bar spacings, height of machines and limitations of ceiling height in mold storage rooms.

Virtus Equipment

The Right Machine for Today's
Recycling Requirements

Complete size reduction solutions

Virtus is the leading supplier of size-reduction solutions. From our wide range of powerful Shredders, Granulators and Pulverizers, a large variety of companies rely on Virtus for their primary and auxiliary processing equipment.

Applications from beside-the-press granulators, to multi-stage shredders, to our new combination units –

We cover the entire spectrum for your size reduction needs!
