Tidy up Spring Cleaning Special!

SAVE 5% on All Orders in March

iD Purge

Eco-Friendly and Easy to Use

- Full line of purge compounds
- Reduces resin required to purge
- Mechanical grades for tougher clean outs
- Minimizes process equipment down-time
- All natural ingredients

iD Eco-PR 360

Safe and Effective Descaling System

- Prevents rust within cooling passages
- Ready-to-use
- Water based chemical
- Runs off compressed air – No electrical needed

"Eco-Pro will keep your cooling lines clean and your molds running better"

MoldTrax Maintenance Solutions,
Ashland, OH

QUICKSHOTS

Drop. Purge. Save.

- Single-dose purge compounds
- Works with **any resin**
- Minimized down-time
- Made in the USA
- FDA compliant

"QuickShots reduced scrap by up to 60%, slashed downtime by 55%, and helped us achieve 63% total cost savings"

Blackhawk Molding, Sparks, NV

iD Additives™

Unmatched Technical Support for Innovative Products!

Use promotional code **PHSpring2022** to receive your **5% discount** for online, email or phone orders in March. Visit our store at idadditives.com/shop.

The 2022 Buyers' Guide will be out this summer

Have you signed up to be listed yet?

Plastics HOTLINE

The 2022 Buyers' Guide will be included in the August Print & Digital Issue

Receive a FREE Basic Listing + Logo if you run an ad in the August 2022 issue. **Deadline for a Buyers' Guide Listing is July 29, 2022.**

Be Listed as a **FEATURED SUPPLIER** in Plastic Hotline's 2022 Buyers' Guide!

Be part of our Featured Suppliers alpha section at the beginning of the printed (and digital) edition in August with your company name, logo, 30 word description, phone, and email of your choice + additional exposure as a Featured Supplier in our Buyers' Guide Digital Edition eblast!

Add-On to one of the packages below: **\$150**

2022 Buyers' Guide Print & Online Listing Packages:

BASIC LISTING:

- Includes company name, address, phone/fax, URL
- Listed in up to 3 product categories
- [View a sample on our Online Buyers' Guide](#)

Total: \$75/12 month package

DELUXE LISTING:

- Basic listing plus...
- Boldface listing in print and online
- Logo in print & digital edition of August Annual Buyers' Guide issue
- Unlimited product categories in print & online
- Social media graphics in your listing with links
- Your video in online listing for a year
- [View a sample on our Online Buyers' Guide](#)

Total: \$195/12 month package

THE BEST LISTING:

- Deluxe listing plus...
- Company description online (up to 300 words)
- Appear at the top of all buyers' guide categories when searching
- 2 product images in your online buyers' guide listing
- 2 spec sheets in your online buyers' guide listing
- 2 videos in your online buyers' guide listing

Total: \$395/12 month package

2021 BUYERS' GUIDE

Use our Buyers' Guide to find industry suppliers for all of your plastics needs. Also visit our online Buyers' Guide (www.plasticshotline.com/buyers-guide) for more information about these companies and more.

NEO series

Design drives change.

Tederic, Your Global Partner

No matter where you are located in the world, Tederic can provide you with premium, high-quality plastic injection molding machines and exceptional after sales service and parts support.

In addition to the Tederic headquarters in China, we have 4 overseas subsidiaries, and our distributors and agents are located in 38 countries around the world.

The all new NEO Series

The **NEO** family of premium injection molding machines are designed to offer stable, precise, efficient and energy saving performance.

Excellent specifications, Industry 4.0 ready controller, and leading brand componentry, all used in conjunction with cutting-edge design, produce machines that are perfect for even the most demanding applications.

BARREL BORE GAUGES

INNOVATIVE ROBOTICS LINE FOR PLASTICS INJECTION MOLDING !

H5 Series !

Heavy Payload , Low ceiling !

H5 SERIES

- Molding Machine Size : 750 ~ 4,000 Tons
- Full Servo Robot up with 5 Axis AC Digital Servo.
- Industry First !. raverse (1 Axis) + Articulated Robot (4 Axis)
- Heavy Payload, Low ceiling & Less foot print
- Application : Basic Take out, Stacking, Insert Over Molding, Gate cutting, 2ndary automation!
- Features : High Strength Steel Frame, Powerful AC servo Motor, High Precision NSK Liner Motion Guide.

H5-C10 Controller

- 7" Wide Touch Screen
- ARM Cortex-A8 CPU, DDR2 512 MB
- Body Attached I.O box
- High-Performance EtherCAT Communication
- User-Friendly Icon-Based Control Screen.
- Developed with 30 years experience in the plastics molding industry.
- CE Certified Components, ISO 9001 Quality Production.

EPIK SERIES (Single or Double Arm Model)

- Molding Machine Size : 200 ~ 800 Tons
- Single or Double Arm Model (3~7 Axis AC Servo Control)
- Control : HYK-70 (Keba) Controller
- Application : Basic Take out, Stacking, Insert Over Molding, In Mold Labeling and Other 2ndary Automation, Sprue Picking
- Features : High Strength Steel Frame, High Strength AC servo Motor, Low Noise NSK Liner Motion Guide

HYK-70 (KEBE) Controller

- 7" Wide Touch Screen
- 1.2 GHz, ARM Cortex-A9 Core
- Ergonomic Design,
- High-Performance EtherCAT Communication
- High Quality Components, ISO 9001 Quality Production.
- User-Friendly Icon-Based Control Screen.
- Mode and teaching type programming for beginner mode
- Line by line programming for expert mode

ISO9001 QUALITY

CE CERTIFIED

EPIK-W SERIES (Flat Front Style Robot)

- Molding Machine Size : 400 ~ 4,000 Tons
- Flat Front style Robot with Single Arm Model
- Control : HYK-70 (KEBE) Controller
- Application : Basic Take out, Stacking, Insert Over Molding, In Mold Labeling and Other 2ndary Automation.
- Features : Longer parts handling, Low ceiling.

UNIK- SERIES (Mini Servo Robot)

- Molding Machine Size : 50 ~ 200 Tons
- Single or Double Arm Model
- Control : HYK-70 (KEBE) Controller
- Application : Take out, Stacking, Gate cutting, 2ndary Automation, Light Application.

HYROBOTICS CORP.

5319 BROWN AVE. ST. LOUIS MO 63120, USA

WWW.HYROBOTICS.COM

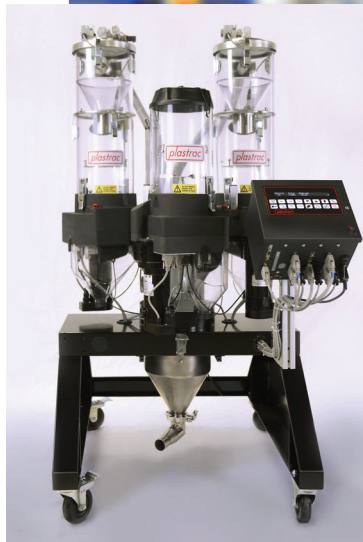

The perfect blend. Every time.

More than fair shares.

Cart-based Plastrac blenders move between machines to simplify color changes and reduce scrap, especially on short runs.

To help custom molders achieve extreme efficiency, Plastrac offers fully independent single and dual cart-based blenders that can be shared between multiple machines. They are based on the value proposition of a single virgin feeder and two different color feeders with shared controller and blower system, typically operating independently with either manual color filling or an automated color loader. Operators will be able to switch colors electronically. All parts of our cart systems are easy to connect and disconnect for fast changeovers and setups.

Easy does it blending.

Now. And down the road.

Plastrac designs and builds blenders to uncomplicate life for our customers. They are simple to set up. Simple to operate. Simple to adapt in the field. Simple to expand in the future. Let's say you buy a two-component (color + additive) system now, but a few years later, you need to make it a multi-component system. Plastrac blenders are all entirely modular, so you won't be locked into the original configuration if your needs change or grow. What's more, all our parts, mechanical and electronic, are

always well stocked, because we don't think your present or future operations should include downtime.

On the fly Color Changes. PDQ.

There are a lot of features that distinguish a Plastrac blender, but none greater than the ability to change colors as often and as quickly as customer orders demand it. The secret is our level-sensing vane switch (standard on every single blender). Harried processors can hurry up color changes by swapping top castings without any need for cable removal.
